FUTURE BUILDERS COMPETITION

This competition is aimed at fostering innovation and creativity in the field of sustainable construction. It will target three key segments of society: high school students, university students, and startups. Participants are invited to submit projects that focus on sustainable solutions for building houses or infrastructure, with a strong emphasis on solving problems in Qatar or the Gulf region.

COMPETITION CATEGORIES & SUBMISSION REQUIREMENTS

> HIGH SCHOOL STUDENTS

Submission: A presentation outlining a sustainable building concept.

Requirements: The presentation should include a description of the project, its sustainability features, and how it addresses a problem in Qatar or the Gulf region.

> UNIVERSITY STUDENTS

Submission: A minimum 20-page paper with a detailed explanation of the project, supported by a presentation.

Requirements: The paper should discuss the project's feasibility, sustainability, and the specific problem it solves. The presentation should highlight the key aspects of the paper in a clear and engaging format.

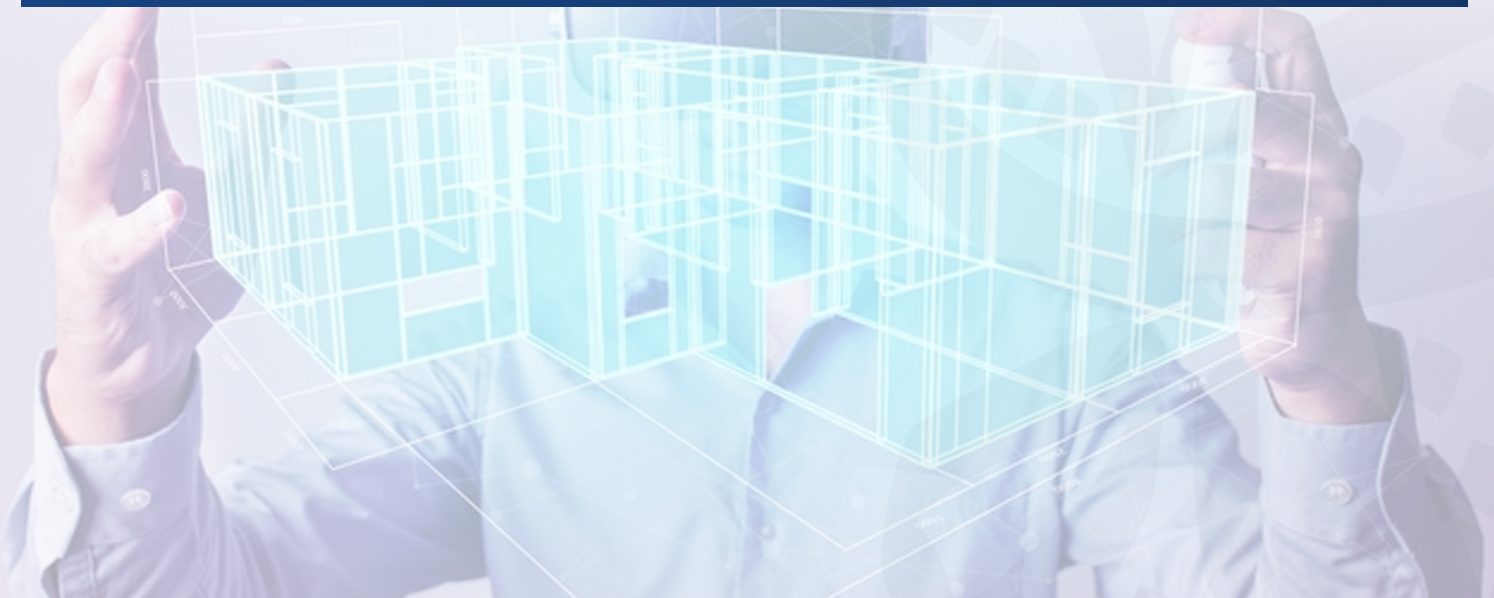

> STARTUPS

Submission: A portfolio of the startup's work and a prototype of the project.

Requirements: The portfolio should demonstrate the startup's experience in sustainable building solutions. The prototype should showcase a tangible representation of the proposed solution, with an emphasis on innovation and practicality.

KEY THEMES

- Sustainability in building design and construction.
- Solutions to housing or infrastructure challenges in Qatar or the Gulf region.
- Innovation in materials, techniques, and technologies that promote environmental conservation and cost-effectiveness.

TIMELINE

15TH JANUARY
SUBMISSION PERIOD BEGINS.

30TH MARCH
DEADLINE FOR SUBMISSION.

07TH APRIL
ANNOUNCEMENT OF SHORTLISTED
FINALISTS WHO WILL PRESENT
THEIR PROJECTS TO THE JUDGES.

28TH APRIL - 01ST MAY
FINAL STAGE OF THE COMPETITION,
WHERE SELECTED PARTICIPANTS
SHOWCASE THEIR SOLUTIONS.

COMPETITION TIMELINE:

Submission Period: January 15 to March 30.

Judging Period: April 1 to April 7.

Announcement of Winners: April 7.

Judging Panel: The competition will be judged by a panel of experts in the field of sustainable construction and sponsors, ensuring that only the most innovative and impactful solutions are recognized.

AWARDS AND RECOGNITION:

Certificates: All winners will receive certificates recognizing their achievement.

Exposure and Networking: All winners will have the opportunity to meet with investors, experts, and industry leaders, providing invaluable exposure and networking opportunities.

CONCLUSION

This competition offers a unique platform for participants to showcase their innovative ideas, develop sustainable solutions, and make a tangible impact in the field of construction. By addressing the pressing issues faced in Qatar and the Gulf region, this initiative will help pave the way for a more sustainable and forward-thinking future in building development.
